

ENERGY WORKS

America's oil and natural gas industry currently supports 9.8 million jobs throughout the economy.¹ Some in Congress are proposing and considering targeted tax increases for only U.S. oil and gas companies. The impact of such could compromise these high-paying union and non-union jobs, threaten our energy security and decrease American companies competitiveness with foreign based operations.

The people of
TEXAS

are part of the oil and natural gas industry.

9,593,499	Total employment for all industries and sectors in TX
\$54,221	Average annual salary in TX across all industries and sectors
1,938,700	Direct, indirect, induced jobs provided by oil & gas industry in TX
\$104,489	Average annual oil & gas industry salary in TX
\$120,636	Average annual non-gas station oil & gas industry salary in TX
\$126,454	Average annual upstream (extraction and production) salary
\$308.3 Billion	Contribution to TX economy or 23 percent of TX GDP Texas' oil
1 st	production rank in the U.S.
1 st	Texas' natural gas production rank in the U.S.

Based on 2011 IMPLAN database.

A Harris Poll conducted on election night – November 2014 – of 827 voters across the country who had voted earlier that day **found that 65% believe that increasing taxes on oil and natural gas companies hurts everyone because those tax increases could drive up energy costs for consumers.** In addition, 57% of actual voters oppose changes in the Federal tax laws that could decrease investment in energy production and reduce energy development here in the U.S.²
